Is the mid-Septmember meeting something our regional administrator could/should be invited to? If yes, I could check his calendar and try to arrange a visit, I'll go with your advice on this.....just a thought. If we could have him there, it would be fantastic. We will get confirmation of the room on Monday. I'll let you know then.

I'd like to speak with you once we know whether he is coming, as I feel the project needs a good push, and perhaps some things should be assigned to someone else. Or perhaps we should have a great role in the project overall. Let's give all of this some thought.
